Colton & Parishville (St. Lawrence County) New York

Park Forestry is pleased to announce the donation of almost 4,000 acres to the Towns of Colton and Parishville (Adirondack Park region, St. Lawrence County). The property will enhance recreational opportunities for the residents of the region, while allowing Park Forestry to retain Timber, Carbon and Forest-Products rights on the parcels which overlook significant bodies of water. This outcome could not have occurred without the tireless work of Deb Christy (community volunteer), Rod Votra & Ron Robert (Town Supervisors), and the NYS Department of Environmental Protection. We would also like to thank the Attorneys who handled this significant acreage transaction under a very tight timeline. Park Forestry relied upon Amy Rhinehardt (Bond, Schoeneck & King) and the municipalities were represented by Eric Gustafson (Pease and Gustafson).
